MEMORANDUM FOR THE RECORD

SUBJECT: Control Statement on Maps

25X1A9a

1. [REDACTED] OSI editor, called this date, to ask for an exception to our policy of using "No Foreign Dissemination" only on maps (where required) to include specified "release" information. She told me they had received a "ruling" from Security to the effect that such was permissive under Agency Regulations.

25X1A9a The source of this ruling was [REDACTED] extension 7160.

2. This ruling from Security plus our own aim to be flexible prompted me to agree to her request. I told her we intend to continue using the "No Foreign Dissem" unless specifically requested to use the double caveat.

3. I informed Ch/CD/BI of the above and suggested they use the "Release to . . ." rather than the "Except . . ." phrasing.
